Map: Chila union of Mongla upazila

## Part A: General Information

### 1. Background, Socio-economic condition, Disaster vulnerability, Hard-to-reach area

#### 1.1: Background

Chila is a Union of Mongla Upazila under Bagerhat district. The Union was established in 1973 and before it was under Chandpai union. Once upon a time Chila union was a part of the Sundraban forest. It is 18 km away towards south from Mongla Upazila head quarter and 78 km from district HQ.

The first Chairman of the Union parishad was Mr. “Abdul Aziz Hawlader” came from Chila village so the name of union is Chila. Mr. Mozharul Islam is the present UP chairman of the Union. The UP complex is located at Dakhin Haldibunia village which is in ward # 01. Total area of the union is 30.15 sq. Km.

#### 1.2: Socio-economic condition:

Like other rural areas of Bagerhat district more than 60% (approx. by UP representatives) of the people have been living below poverty line. Fishing, fish culture, day labor, agriculture and honey collection from the Sundrabans forest is the main profession of the people. The main crops are paddy, vegetable, banana and main export items are Fish (Shrimp) and honey. Fishing and fish (shrimp) culture are considered as major livelihood; children are also engaged in those activities so they are deprived from their rights are the main concern of their education. There is no government and private Bank but they have three big village markets in the Union. There are brac, ASA, Grameen Bank and some other NGOs who are involved in micro-credit/financing program. The overall socio-economic condition of the community people is not so good.

**1.3: Geography:** The union is situated by the east bank of Passur river and north part of Sundarban. It lies bounded on the north by Chandpai union, on the east by Sundarban union, on the south by Sundarban forest area and on the west by Passur River

#### 1.4 : Disaster / Vulnérabilités:

Being situated close to the Bay of Bangle Chila union is a highly disaster prone area and get affected by natural disaster very often. As Situated by the bank of the Passure, the big river, Chila Union was protected by embankment that was washed away during disaster AILA on May 25, 2009. As if it is the fate of the Union that cyclone and tidal waves used to hits almost every year and affects the people, damages their houses and crops and increase their sufferings which make them poor/ultra-poor. In the rainy season paddy, vegetable and other crops usually washed out by high tide and fish farmers loss their fishes due to overflow of water. There are Eleven (11) Cyclone shelters with the capacity of only 5300 but for protecting animal there is no any shelter like earthen killa (fort). Cyclone Preparedness Programme (CPP) is working here from last year on cyclone preparedness and early warning system. They have 9 trained and well equip volunteer units (male-90 and female 45). Some portion of the union is affected by River erosion and people who have become homeless have migrated to the Mongla Port Municipality.

### 1.5: Hard-to-Reach Areas, villages and communities:

There is no hard to reach areas in this union. Internal communication is almost good in dry season but not so good in the rainy season with 11.40 km carpeting road, 30 km brick soling road and 50km earthen road. Motor cycle, easy bike and Rickshaw/van are usually used as vehicle within the union. Sometimes people have to face difficulty to for attaining health service specially ANC service due to long distance in between FWC, CC and community. Distance and communication mood are as below; (Distance is counted from the UP office to the middle of respective village)

Ward #	Name of Village	Distance from Union Parishad	Mood of Communication
1	Dakhin Haldibunia	2.00 KM	Jeep/Rickshaw/van, Motor Cycle
	Felur Khonda	1.00 Km	Rickshaw/van, Motor Cycle
	Hitalmari	1.50 Km	Rickshaw/van, Motor Cycle
2	Madhya Haldibunia	3.00 Km	Rickshaw/van, Motor Cycle
	Dasher Khonda	3.50 Km	Rickshaw/van, Motor Cycle
3	Uttar Haldibunia	4.00 KM	Rickshaw/van, Motor Cycle
	Gholer Danga	4.50 Km	Rickshaw/van, Motor Cycle
4	Purbo Chila	6.00 Km	Rickshaw/van, Motor Cycle
	Gabbunia	5.00 Km	Jeep/Rickshaw/van, Motor Cycle
5	Pachim Chila	7.00 KM	Jeep/Rickshaw/van, Motor Cycle
	Sundartala	7.50 Km	Jeep/Rickshaw/van, Motor Cycle
	Amtala	6.30 Km	Rickshaw/van, Motor Cycle
6	Dakhin Chila	1.50 KM	Rickshaw/van, Motor Cycle
	Ulukata	1.00 Km	Rickshaw/van, Motor Cycle
7	Dakhin Joymoni	7.50 KM	Rickshaw/van, Motor Cycle
8	Madhya Joymoni	4.50 KM	Rickshaw/van, Motor Cycle
9	Uttar Joymoni	2.50 KM	Rickshaw/van, Motor Cycle

## 2. Population Profile:

### 2.1 Population in general

The total population of the Union is 20,973 in 4373 households (Census 2011), and population density is 1097 per Sq Km. But there is a variation on the number of HH of the Union compare to “the holding assessment 2012-2013” which was conducted by the union council itself, and according to them the number of HH is 4688. Union Parishad demands that the holding assessment is updated. Around 71.82% population of this union are Muslim, 27.06% Hindus and 1.08% are from Christian religion and 0.04% from others. This union is highly disaster prone area for Cyclone and tidal surge.

Table 1.1: Ward wise Sex disaggregated population data

### 2.2 Child Population:

According to the Census 2011, total child population in the union from 0 to 19 years is 7,110 which is 33.90% of the total population (from 0 to 4 is 1,552, 5-9 is 1,930, 10-14 is 2,181 and from 15 to19 is 1,447. Community data provides more age specific information than census data and the total child population from 0 to 18 years is 5,542, from 0 to1 year is 386, 1 to 2

years 298, 5 to 6 years 470 and 6 to 10 years 1429. This gives an increased population number than the Census as usual. Table 1.2 shows the details

Table 1.2: Data on age specific child population

### Part B: Situation of Children and Women

The following chapters describe the sector wise facilities and situation of children and women in the Union. The following table gives a snapshot of the situation of children and women in the union:

Table 1: Snapshot of Situation of children and women in the union

Indicators	Total	Received	Not Received
Number of pregnant women who have received / not received IFA tablets	81*	81*	-
Number of pregnant mothers who have completed 4 ANC visits	81*	0*	81*
Number of delivery take place in health centers (institutional delivery)			No data
Number of 1 year old children having / not having birth certificates	295*	186**	109**
Number of birth registration within 45 days of birth		00**	
Number of 1 year old children who have completed all the vaccines and left out	295*	279*	16*
Number of children <5 with / without recommended weight and height			No data
Number of children in PPE/ out of PPE	539*	486*	53*
Number of children in / out of school ( Primary)	1778*	1778*	-
Number of children in / out of school (Secondary)		1336*	
Number of children engaged in labor		198**	
Children with disabilities		30**	
Number of children not living with families			No data
Number of children below 18 who are married		0**	No data
Number of households with / without access to safe water sources	4688**	930**	3758**
Number of households with / without sanitary latrines	4688**	2844**	1529*
Number of female headed households			No data

**\*administrative data, \*\*community data \*\*\*BRIS data as of January 2014**

The union has 81 pregnant women and as of September 2014 all of them have visited the health center at least once for checkup and all are received IFA tablet. They have no record out of them who many conduct/completed 4 ANC visits and how many intake 100 IFA. None of the health centers in the union have any facility for delivery so no administrative data is available on this indicator. The table above shows that 16 children do not have full coverage of vaccination out of 295 children (Administrative data). Data are not available on nutritional status of children in any form. Community do not have much idea in this regard, they identify healthy (fatty) and unhealthy (thin) children and think that most of the children are healthy. Health centers do not record the height or weight of the children. The table above shows that 109 children of 1 year old do not have birth certificate out of 295 children (Community data). Birth registration within 45 days till not happened but overall birth registration status of chila

union is good. 53 children are not enrolled in PPE class out of 539. As administrative data 1778 children of school going age at primary level and all are enrolled in the school. According to community information a significant number of children are out of secondary education in the union. Child marriage is occurred but it is not recorded as the age is recorded above 18 years in the register during marriage.

### 3. Health and Nutrition

#### 3.1 Situation of Children and Women in the Union

According to the AHI 279 children have received vaccines out of 295 children of 1 year of age in the month of September 2014. The community thinks that each of the child is vaccinated however, there might be a few left out children which are not counted or recorded.

Table 2.1: Ward wise number of Children fully immunized or left out *in Annex II*.

Community data says that the Union has 81 pregnant women as of September 2014 and all are received IFA tablet but they have no data on how many completed 4 ANC and how many intake 100 IFA. This data varies with the community data i.e. pregnant women is 160 and 89 are intake 100 IFA tablet.

*Table 2.2 shows the Number of Pregnant women with status of IFA intake in Annex II.*

A few number of institutional delivery takes place at the upazila level. Institutional delivery rate is very low and it is assumed by the community that 10 to 15 deliveries used to take place in upazila health center. These deliveries mostly occur in case of complicacy or in the case of women from well off families or who are well aware.

**3.2 Facilities and services available in the Union:** The Union has a Family Welfare Center (FWC), 2 functional Community Clinics (CC), 8 Satellite Clinics and 24 EPI sites. There are health services in the Union provided by NGOs which are mainly community awareness.

*Table 2.3 in annex II shows the available facilities in the Union.*

#### 3.3 Status of Human Resource:

**3.3.1 Department of Health:** The Union is served by only 3 Health Assistant and 2 CHCP. The post are vacant 1 MO, 1 SACMO, 1 Assistant Health Inspector (AHI) and 1 Health Assistant. Shortage of human resources hampers the regular services of pregnant mothers and children.

*Table 2.4 in annex II shows the HR status of Health services in the Union.*

**3.3.2 Department of Family Planning:** The Union is served by 1 Family Welfare Visitor (FWV), 1 Family Planning Inspector (FPI), 5 Family Welfare Assistants (FWA) and there is no vacant position).

*Table 2.5 in annex II shows the HR status of Family Welfare services in the Union.*

### 4. Situation of Birth Registration, Disability, Child Marriage and Child Labor

**4.1 Birth Registration:** A significant number of children of one year old do not have birth certificate. Community data shows that 186 children have birth certificates out of 295 children. Till September 2014, no child births were registered under 45 days (BRIS data). The Union Parishad is well equipped for providing services for ensuring birth registration of children. It is served by a Secretary, and two UISC Entrepreneurs. This progress happened with the support of the District, Upazila administration, UNICEF and NGOs joint efforts. The UP have been providing free services to the children of below two years.

**4.2 Children with Disability:** There are 30 children with disability in the union. Few of them are attending school and many of them do not have opportunity to attend school as the school does not have physical structure or friendly environment that encourages them to stay. Data are not available neither with the community or the government department on how many children are attending schools and how many do not attend.

**4.3 Child Marriage:** Though child marriage occurs, no data is available on child marriage.

**4.4 Children detached from families:** Some children are detached from their families. However, the community does not have information on whether these children are all orphan or where they are engaged. The UP is trying to collect the real information and have initiated to make plane accordingly for their survival.

**4.5 Status of HR:** The Union has one Secretary who is responsible for all the activities in the UP including birth registration. According to the UP Act 2009, the UP should have at least another staff that will look after the accounts and other administrative issues. However, the UISC Entrepreneurs are providing support in birth registration. The Union is also served by a government social worker.

**4.6 Child Labor:** According to the community the Union has 198 children who are engaged with informal labor force. Children are mainly engaged in agricultural works, fishing and non-formal sector like in small hotels and restaurants. Those children are out of schools. Though some of the children are getting conditional cash transfer from the government supported by UNICEF, it is not able to cover all of the children out of school.

Table 3.1: Data on Situation of birth registration child labour, disability

## 5. Education: Pre Primary, Primary and Secondary Education

**5.1 Coverage of Education:** According the survey conducted by the DPE, the Union has a total of 539 pre-school aged children of which 486 children are enrolled in 12 GPS and 8 NGO run school pre-primary class. The Upazila primary education officer (UPEO) shows the union has a total number of children of aged 6–10 are 1446 and all are enrolled in 12 Government Primary School-GPS. But 332 children enrolled in NGO run 10 school for primary level education those were not included in upazila primary education department. On the other hand total number of children of aged 5 to 6 differs with the data provided by community which is 1062. According to the community people, there are many children who do not attend pre-primary class because of lack of early learning centers or school within their reach (within a kilo meter) and for poor road communications.

According to UPEO data there are 1446 children of 6-10 years old and all are enrolled in the primary schools run by Government. As per community data the union has total 2427 children of aged 6-10 and out of this 2179 children are enrolled in primary schools run by Government, NGOs and missionary. Many children are attending Madrassa for their education both at primary and secondary level and data are not available.

At secondary level, there are 1081 children enrolled in four secondary schools (Girls: 581 & boys: 500) and 255 students (Girls 138 and boys 117) enrolled in one secondary level Madrassa within the union. Some students also enrolled in Mongla Municipality area secondary schools. There is no data for how many children are drop out of secondary school.

*Table 4.1, 4.2, 4.3: Data on Education coverage of primary and secondary level in Annex IV.*

**5.2 Available Facilities:** The Union has 12 Government Primary Schools (GPS), 10 schools run by NGOs for primary education coverage. Out of 14 villages in the Union there are 2 villages without government schools. However, there are some schools in those villages run by NGO. The Union has 4 secondary schools and one secondary level Madrasas to cover the children of the whole Union.

*Table 4.4: shows the data on educational facilities in Annex IV.*

**5.3 HR status in the Education Sector:** There are 12 posts for Head Teachers and 40 posts for Assistant Teacher sanctioned in 12 GPS and only one Assistant Teacher and one Head Teacher post is vacant. According to the Government policy standard, the teacher student ratio for PPE is 1:30 and for primary class the ratio is 1:45. The data in table 5.2 shows that there are 1446 children enrolled in 12 GPS but some Schools do not follow this standard. Through discussions with different school teachers and community, it is found that a few numbers of schools are overcrowded and more than 50 children are enrolled in each class. This overcrowds hampers the learning process of the children.

## 6. Water and Sanitation

**6.1 Safe Water Facility:** DPHE does not have record on total number of tube wells, Rain water harvesting system, PSF and pipe line supply water points in the union. They have record only government supplied water source but there are many water sources established by private and NGOs. According to the Census 2011, only 35 HH used tap water and 121 HH use tube well water which is 0.8% and 2.8% of total HH. This figure widely varies with the community data. Community data shows that the Union has two MAR project, five tube well, 23 PSF and pipe line tap and 1634 RWHS. Almost 8 months all HH have access to safe water in rainy season and rest four months about 40% HH used to use protected pond as safe water sources. According to the Government Policy, every 5 households should have one safe water points.

Table 5.1: Source of safe water and water Coverage

**6.2. Sanitation coverage:** Sanitation coverage in the Union is good. The union has 4363 (Census 2011) households where 1414 households (32.4%) have hygienic latrines, 1430 HH (32.8%) has sanitary latrine without water seal, 1122 HH (25.7%) have unhygienic latrines and 396 households (9.1%) do not have any latrines. Community data widely varies with this data. Table 5.2 in Annex V shows that 3241 households have hygiene latrines, 324 households use unhygienic latrines and 40 households do not have any latrines out of 4688 households

Table 5.2: Sanitation Coverage

**6.3. Status of HR:** The Union is served by 0.50 (one for two unions) tube well mechanic who is responsible only for the DPHE provided water points. There is a Sub-Assistant Engineer in upazila.

## 7. Services by NGOs:

There are seven to eight NGOs including BRAC, CARITAS, World vision, Muslim Aid, Rupantar working in the Union on health, education, child protection, water and sanitation, disaster preparedness, micro credit etc. is implementing by different Project

## 8. Functional Status of Union Parishad

The Union Parishad is functioning with the Chairman, 12 members and a Secretary. The UP holds coordination meeting in every months regularly. All the standing committees have been formed but most of the committees are not functioning well. The present UP chairman have been holding this position from 2013 and he is popular in the community.

Ward Shova(meeting): Ward Shovas were held in all the Wards in March and April 2014 and children issues were discussed in each Ward Shova. Members proposed specific needs of children related to education, child rights, safe water and sanitation to incorporate in the UP plan. Last year UP expense was Tk. 4,84,000/= from their annual budget to address children issues where the total budget was Tk. 1, 82,59,415/= The current fiscal year 2014-2015 UP allocated Tk. 3,50,000/= in UP annual budget to address children needs and total budget is Tk. 1,84,17,443/=

**Detailed data on the profile are presented in the next pages as annex**

**ANNEXURES**
