Map of Kaikhali Union

## Part A: General Information

### 1. Background, Socio-economic conditions, Disaster Vulnerabilities

#### 1.1 Background

Kaikhali is a Union of Shyamnagar upazila of Satkhira district. The union was established in 1950 by the East Pakistan government. It is about 20 Km from Upazila head quarter and 75 km from Satkhira district head quarter. The present UP Chairman Rezaul Karim was elected by direct peoples vote and took charge in May 2011. The UP complex is located at Kaikhali village ward no. 3. Total area of the union is 44.62 sq. Km. The Palnadi River separated the union from India (West Bengal)

#### 1.2 Socio-economic condition:

Like other rural areas of this district about 70% to 75% per cent (approx.) people are living below poverty line. Main occupations of the population are agriculture, fishing, day labor, fish culture van puller and small trades. The main crops are paddy. There are lots of forests cultivated by the government and private farmers. Fishing is considered as major livelihood, children are engaged in fishing boats resulted deprivation of their rights which is capital concern of education. Total literacy rate in the union is 49.9%, of which male 55.9% and female 44.8% (Census 2011). There is no government and private Bank in this union but it has 2 medium size village markets. However, there are NGO, BRAC, Shushilon who are involved in micro-credit/financing programme. World Vision, Rupantor are works on C4D.

#### 1.3 Geography:

The union is located in Shyamnagar Upazila and surrounded by Noorpur union in the North, Ramjanagar union on east, Sundarban in the South and Palnadi River as well as West Bengal (India) in the west side.

#### 1.4 Disaster and Vulnerabilities:

The union is situated on the bank of Palnadi River which separated the union from India and Sundarban. The total area of this union is coastal belt so Cyclone, heavy rainfall, and tidal wave hits almost every year and affects the people, damages their houses and crops, increase their sufferings which make them poor/ultra-poor. Poverty is persistent due to natural disaster and low income growth in the union. In the rainy season paddy, vegetable and other crops usually suffered by water logging. Fish farmer's loss their fishes due to overflow of water. There are 8 Cyclone Shelter at different vulnerable villages. The Union Disaster Management Committee (UDMC) has assessed the disaster vulnerabilities and developed disaster preparedness and response plan in the last year with the support of LCBCE - UNICEF.

## 1.5. Hard-to-Reach Areas:

The union itself a hard-t-reach area more over there is hard to reach areas in this union as internal communication. Some Carpeting, brick solling and earthen road linked with almost all villages. Motor cycle and van are usually used within the union for communication. People do not face much difficulty to have access to social service facilities. Distance and communication mood are given below.

Sl#	Name of Village	Distance from Union Parishad	Mood of Communication
1	Jadobpur	5 KM	Van, Cycle, Motor cycle
2	Purbo Koikhali	7 KM	Van, Cycle, Motor cycle
3	Joyakhali	5 KM	Van, Cycle, Motor cycle
4	Shailkhali	4 KM	Van, Cycle, Motor cycle
5	Poranpur	8 KM	Van, Cycle, Motor cycle
6	Mirjapur	6 KM	Van, Cycle, Motor cycle
7	Majherati	4 KM	Van, Cycle, Motor cycle

## 2. Population Profile:

### 2.1 Population in general

According to population Census 2011 The Union has a total population 24608 in 5815 house hold and population density is 1046 per Sq Km. But there is a significant variation on the size of population of the Union as "the holding assessment 2013-2014" which was conducted by union parishad, itself, and enumerated the total population 30408 and the number of households 6555. The Union Parishad claimed that the holding assessment is updated and correct. Around 89% population of this union are Muslim and only 11% are from Hindu religion.

*The details are shown in the Table 1.1 in the Annex I.*

### 2.2 Child Population:

According to the Census 2011, total child population in the union from 0 to 19 years are 10,365 which is 42% of total population (0-4 is 2455, 5-9 is 2958, 10-14 is 2916 and 15-19 is 2036. Community data provides more age specific information than census data and the total child population from 0 to 18 years are 13239 which is 43.53% of total population, 0-1 year is 841, 1 to 2 years 961, 5 to 6 years 1819 and 6 to 10 years 3408. This gives an increased population number than Census as usual.

*Table 1.2 shows the details.*

## Part B: Situation of Children and Women

The following chapters describe the sector wise facilities and situation of children and women in the Union. The following table gives a snapshot of the situation of children and women in the union:

**Table 1: Snapshot of Situation of children and women in the union**

Indicators	Total	Received	Not Received
Number of pregnant women who have received / not received IFA tablets	475*	475*	
No of pregnant mothers who have completed 4 ANC visits	475*	245*	Some are not eligible for 4 ANC
No of delivery take place in health centers (institutional delivery)			Data not available in union level
No of 1 year old children having / not having birth certificates	890*	213**	677**
No of birth registration within 45 days of birth		00**	
No of 1 year old children who have completed all the vaccines and left out	890*	890*	-
No. of children <5 with / without recommended weight and height			Data not available in union level
No. of children in PPE/ out of PPE	729*	729*	-
No. of children in / out of school ( Primary)	3048*	2993*	55*
No. of children in / out of school (Secondary)		1832*	
No of children engaged in labor		345**	
Children with disabilities		416**	
No. of children not living with families			No data
No of children below 18 who are married			No data
No of households with / without access to safe water sources	6555**	5923**	632**
No of households with / without sanitary latrines	6555**	5086**	1469**
No of female headed households			No data

**\*administrative data, \*\*community data \*\*\*BRIS data as of January 2014**

The union has 475 pregnant women as of September 2014 and all of them have visited the health center at least once for checkup. However, only 245 have completed 4 ANC visits and 230 pregnant women not receive the full package of service. None of the health centers in the union have any facility for deliver so no administrative data is available on this indicator. The table above shows that the union have 890 children under 2 years age and are have received full coverage of vaccination (as administrative data). Data are not available on nutritional status of children in any form. Community do not have much idea on this however, they identify healthy (fatty) and unhealthy (thin) children and think that most of the children are healthy. Health centers do not record the height or weight of the children. The table above also shows that 677 children of 1 year do not have birth certificate out of 890 children (Community data). Birth registration within 45 days of birth not yet made in this union but overall online birth registration status is good. 165 children are not enrolled in BRAC run PPE Centre and 370 children covered by JCF ABL school those were not included in GoB status. A significant number of children are out of secondary education in the union but there are no valid data in anywhere. Child marriage is occurred but it is not recorded as the age is recorded above 18 years in the register during marriage.

### 3. Health and Nutrition

#### 3.1 Situation of Children and Women in the Union

According to the community 773 children have received vaccines out of 951 children of 1 year age. This figure widely varies with the data provided by health sector which is 890 and all are received full package of vaccine. Community also think that every child is vaccinated however, there might be a few left out children which are not counted or recorded.

*Table 2.1 shows the Number of children fully immunized or left out in Annex II.*

Community data says that the Union has 315 pregnant women as of September 2014. During September 201 pregnant women have completed 4 ANC visits and 163 have consumed at least 100 IFA tablets during last six months (Source: WDC as of September 2014). This data varies with the administrative data i.e. Family Planning Office enlisted 475 pregnant women out of which 245 have completed 4 ANC visits, 475 have received IFA tablets and 405 have consumed 100 IFA during last six months up to September 2014.

*Table 2.2 shows the Number of Pregnant women with status of IFA intake in Annex II.*

Few institutional delivery takes place in the upazila level. Institutional delivery is very low and it is assumed by the community that 10 to 15 delivery take place in upazila health center. These deliveries mostly occur in case of complicity or in the case of women from well off families or who are very aware.

**3.2 Facilities and services available in the Union:** The Union has a Family Welfare Center (FWC), 3 functional Community Clinics (CC), 8 Satellite Clinics and 24 EPI sites. There are health services in the Union provided by NGOs which are mainly community awareness.

*Table 2.3 in annex II shows the available facilities in the Union.*

#### 3.3 Status of Human Resource:

**3.3.1 Department of Health:** The Union is served by 1 SACMO, 1 Assistant Health Inspector (AHI), 5 HA and 3 CHCP. There are no vacant position in health section but as community information they are not getting quality health service. Community people informed that both the Health and Family Planning Personnel were irregular to provide service

*Table 2.4 in annex II shows the HR status of Health services in the Union.*

**3.3.2 Department of Family Planning:** The Union is served by 1 Family Welfare Visitor (FWV), 1 Family Planning Inspector (FPI) and 6 Family Welfare Assistants (FWA). At present there are no vacant position in Family planning section.

*Table 2.5 in annex II shows the HR status of Family Welfare services in the Union.*

#### **4. Situation of Birth Registration, Disability, Child Marriage and Child Labour**

**4.1 Birth Registration:** A significant number of children of one year old do not have birth certificate. Community data shows that 213 children have birth certificates out of 890 children. Till September 2014, there were no registered any children within 45 days of birth. (BRIS data). The Union Parishad is well equipped for providing services for ensuring birth registration of children. It is served by a Secretary, and two UISC Entrepreneurs. This progress happened with the support of the District, Upazila administration, UNICEF and NGOs joint efforts. The UP is providing free services to the children of below two years.

**4.2 Children with Disability:** There are 416 children with disability in the union. Few of them are attending school and many of them do not have opportunity to attend school as the school does not have physical structure or friendly environment that encourages them to stay. Data are not available neither with the community or the government department on how many children are attending schools and how many do not attend.

**4.3 Child Marriage:** Though child marriage occurs, no data available on child marriage.

**4.4 Children detached from families:** Some children are detached from their family. However, the community do not have information on whether these children are all orphan or where they are engaged. The UP is trying to collect the real information and accordingly make a plan for their survival.

**4.5 Status of HR:** The Union has one Secretary who is responsible for all the activities in the UP including birth registration. According to the UP Act 2009, the UP should have at least another staff who will look after the accounts and other administrative issues. However, the UISC Entrepreneurs are providing support in birth registration. The Union is also served by a government social worker.

**4.6 Child Labour:** According to the community the Union has 345 children who are engaged with informal labour force. Children are mainly engaged in agricultural works, fishing and non-formal sector like in the tea stall and small hotels and restaurants. And these children are out of schools. Though some of the children are getting conditional cash transfer from the government supported by UNICEF, it is not able to cover all of the children out of school.

#### **5. Education: Pre Primary, Primary and Secondary Education**

**5.1 Coverage of Education:** According the survey conducted by the DPE, the Union has a total of 729 pre-school aged children and all are enrolled in pre-primary class run by government. National NGO BRAC run 5 PPE Centre in this union and covered 165 children those were out of upazila primary education department survey. Actually they (UPE) shows total number of children those were enrolled in PPE class run by government schools. The total number of children of aged 5 to 6 differs with the data

provided by community which is 1753. NGOs do not conduct any survey on how many eligible children are in the Union rather they use the departmental data and enrol children within the surrounding of the school. According to the community people, there are many children who do not attend pre-primary class because of lack of early learning centres or school within their reach (within a kilo meter) and for poor road communications.

At primary level there are 3048 children of 6-10 years old but 2993 enrolled in the primary schools run by Government that means 55 not enrolled in primary level. On the other hand NGO named JCF run 12 ABL school and covered 370 primary level drop out children those are not included in GoB status. According to community information till some children are not enrolled in the primary schools. Many children are attending Madrassa for their education both at primary and secondary level and data are not available. Community data of this age group differs with the administrative data.

At secondary level, there are 1832 children are enrolled in different schools (Girls: 959 & boys: 773) students are enrolled in two secondary level registered schools and three secondary level Madrasa within and adjacent to the union. According to the Table 4.3 there are no data for out of school children. If we consider the child population data (Census 2011), the secondary school going children are 2986 or more and the school enrolment is only 2159 which means that a large number of children (827) are not enrolled or do not attend in or dropped out from secondary education (Age 11-14 only).

*Table 4.1, 4.2, 4.3 shows the data on Education coverage in Annex IV.*

**5.2 Available Facilities:** The Union has 14 Government Primary Schools (GPS), 6 NGO schools run by BRAC and 12 ABL school run by JCF to cover the PPE and primary level education. Out of 21 villages in the Union, there are 7 small villages without government schools. However, there are some schools in those villages run by NGO and community. The Union has only 2 secondary schools and three Madrasa to cover the secondary level education.

*Table 4.4 shows the data on facilities in Annex IV.*

**5.3 HR status in the Education Sector:** There are 14 posts for Head Teachers and 88 posts for Assistant Teacher sanctioned in 14 GPS and only 7 posts of assistant teacher are vacant. According to the Government policy standard, the teacher student ratio for PPE is 1:30 and for primary class the ratio is 1:45. The data in table 4.2 shows that there are 2993 children enrolled in 14 GPS and a few schools do not follow this standard and the average class size of these schools is more than 50 PPE children /teacher. Discussion with different school teachers and community, it is found that a few of the schools are overcrowded and more than 60 children are enrolled in each class. This overcrowds hampers the learning process of the children.

## **6. Water and Sanitation**

**6.1 Safe Water Facility:** DPHE does not have record on number of tube wells, Rain water harvesting, PSF and pipe line supply water points in the union. According to the Census 2011, 464 households have access to tube wells water. This figure widely varies with the community data. Community data shows that the Union has 90 tube wells, 8 RWHS and 687 PSF water points. A total of 5923 (90%) households have access to safe water out of 6555 households. According to the Government Policy, every 5 households should have one safe water points.

**Sanitation coverage:** Sanitation coverage in the Union is good. The union has 5815 (Census 2011) households where only 580 households (10%) have hygienic latrines, 2861 households have unhygienic non water seal sanitary latrine, 2214 HH have non sanitary latrine and 160 HH do not have any latrines. Community data widely varies with this data. Table 5.2 in Annex V shows that 5086 (77.59%) households have hygiene latrines, 1450 households use unhygienic latrines and 19 households do not have any latrines out of 6555 households

**Status of HR:** The Union is served by 0.50 (one for two union) tube well mechanic who is responsible only for the DPHE provided water points. There is a Sub-Assistant Engineer in upazila.

### **Services by NGOs:**

There are eight to ten NGOs including Brac, Rupantor, NGO-Fourm, Caritas, World Vision, Dhaka Ahsania mission, Shushilon, Care-Bangladesh working in the Union on health, education, child protection, water and sanitation etc. Care-Bangladesh, Rupantar are implementing Nutrition and C4D Project with support from UNICEF.

## **8. Functional Status of Union Parishad**

The Union Parishad is functioning with the Chairman, 12 members and a Secretary. The UP holds coordination meeting in every months regularly. All the standing committees have been formed and most of the committees are functioning and hold meeting to discuss the relevant issues.

**Ward Shova:** Ward Shovas were held in all the Wards in March and April 2014 and children issues were discussed in many of the Ward Shovas. Members proposed specific needs of children related to education, child rights, safe water and sanitation to incorporate in the UP plan. Last year UP budgeted Taka 31819000/- to implement its annual plan for 2013-2014 fiscal year. This budget largely was distributed in road constructions, infrastructures etc. Tk.145000/= was allocated for children to address the children issues. In this year the UP allocated Tk.920000/= for children and total budget for fiscal year 2014-15 is 45197000/= taka.

**Detailed data on the profile are presented in the next pages as annex.**
