Map of Kashmiri Union

1. Background, Socio-economic conditions, Disaster Vulnerabilities

1.1 Background

Kashimari is a Union of Shyamnagar upazila of Satkhira district. The union was established in 1950 by the East Pakistan government. It is about 17 Km away from Upazila head quarter and 70 km from Satkhira district head quarter. Mr. kazi Abdul Hamid is the chairman of this union and he was elected by direct peoples vote and took responsibility in May 2011. The UP complex is located at Kashimari village. Total area of the union is 32.48 sq. Km. The Malonchi River is running east side of the union.

1.2 Socio-economic condition:

Like other rural areas of this district about 75% per cent (approx.) people are living below poverty line. Main occupations of the population are agriculture, fishing, fish culture, day labor, van/auto bike puller and small trades. The main crops are paddy. Fishing is considered as major livelihood, children are engaged in fishing boats resulted deprivation of their rights which is capital concern of education. Total literacy rate in the union is 50.40%, of which male 56.1% and female 46.7% (Census 2011). There is no government and private Bank in this union but

it has 3 medium size village markets. However, there are NGO, BRAC, Nowabeki foundation, Caritas who are involved in micro-credit/financing programme. World Vision, Rupantor are works on good governace. Cow and buffalo milk is available here and about 25 families are involved with milk collection and production of card, sweets etc. and these products export to other districts.

1.3 Geography:

The union is located in Shyamnagar Upazila and surrounded by Sreula union of Ashasuni upazila in the North, Protab nagar union as well as Malonch river in the east, Atulia union in the south and Shyamnagar union in the west. Total area of the union is 32.48 sq. km.

1.4 Disaster and Vulnerabilities:

The union is situated on the bank of Malonchi River. The total area of the union is coastal belt so Cyclone, heavy rainfall, and tidal wave hits almost every year and affects the people, damages their houses and crops, increase their sufferings which make them poor/ultra-poor. Poverty is persistent due to natural disaster and low income growth in the union. In the rainy season paddy, vegetable and other crops usually suffered by water logging. Fish farmer's loss their fishes due to overflow of water. There are six formal

Cyclone shelter at the union & location at different vulnerable villages. The Union Disaster Management Committee (UDMC) has assessed the disaster vulnerabilities and developed disaster preparedness and response plan in the last year with the support of LCBC - UNICEF.

1.5. Hard-to-Reach Areas:

There is hard to reach areas in this union as internal communication. Some Carpeting, solling and earthen road linked with almost all villages. Motor cycle and van are usually used within the union for communication. People do not face much difficulty to have access to social service facilities. Distance and communication mood are given below.

Sl#	Name of Village	Distance from Union Parishad	Mood of Communication
1	Sankarkati	08 km	Van, Cycle, Motor cycle
2	Akota Guschogram	07 km	Van, Cycle, Motor cycle
3	Ghola	04 km	Van, Cycle, Motor cycle
4	Kashimari, japali	03 km	Van, Cycle, Motor cycle
5	Godara	05 km	Van, Cycle, Motor cycle

2. Population Profile:

2.1 Population in general

According to population Census 2011 The Union has a total population 26657 in 6452 house hold and population density is 1021 per sq Km. But there is a significant variation on the size of population of the Union as “the holding assessment 2014” which was conducted by union parishad, itself, and enumerated the total population 31493 and the number of households 6896. The Union Parishad claimed that the holding assessment is updated and correct. Around 88% population of this union are Muslim and 12% are from Hindu religion.

The details are shown in the Table 1.1 in the Annex I.

2.2 Child Population:

According to the Census 2011, total child population in the union from 0 to 19 years are 12083 which is 45.32% of total population (0-4 is 2822, 5-9 is 3625, 10-14 is 3260 and 15-19 is 2376. Community data provides more age specific information than census data and the total child population from 0 to 18 years are 10589, 0-1 year is 342, 1 to 2 years 295, 0-5 years 1576, 5 to 6 years 809 and 6 to 10 years 2880. This gives an increased population number than Census as usual.

Table 1.2 shows the details.

Part B: Situation of Children and Women

The following chapters describe the sector wise facilities and situation of children and women in the Union. The following table gives a snapshot of the situation of children and women in the union:

Table 1: Snapshot of Situation of children and women in the union

Indicators	Total	Received	Not Received
Number of pregnant women who have received / not received IFA tablets	565*	471*	94*
No of pregnant mothers who have completed 4 ANC visits	565*	453*	112*
No of delivery take place in health centers (institutional delivery)			No data
No of 1 year old children having / not having birth certificates	608*	66**	542**
No of birth registration within 45 days of birth		00**	
No of 1 year old children who have completed all the vaccines and left out	608*	608*	
No. of children <5 with / without recommended weight and height			No data
No. of children in PPE/ out of PPE	432*	432*	In addition NGO covered 240
No. of children in / out of school (Primary)	2653*	2618*	35,
No. of children in / out of school (Secondary)		3699*	
No of children engaged in labor		204**	
Children with disabilities		60**	
No. of children not living with families			No data
No of children below 18 who are married			No data
No of households with / without access to safe water sources	6896**	6507**	389**
No of households with / without sanitary latrines	6896**	5125**	1771**
No of female headed households			No data

***administrative data, **community data ***BRIS data as of January 2014**

The union has 565 pregnant women as of November 2014 and out of them 471 have visited the health center at least once for checkup and take the IFA tablet in different amount. However 453 Pregnant Women have completed 4 ANC visits and 112 not receive the full package of service. None of the health centers in the union have any facility for deliver so no administrative data is available on this indicator. The table above shows that 608 under 2 years' age children are available in the union and all are received full coverage of vaccination. Community data also shows that all (637) children are received full package of vaccine. Data are not available on nutritional status of children in any form. Community do not have much idea on this however, they identify healthy (fatty) and unhealthy (thin) children and think that most of the children are healthy. Health centers do not record the height or weight of the children. The table above also shows that 542 children of 1 year do not have birth certificate out of 608 children (Community data). No Birth registration

occurred within 45 days but overall birth registration status of Kashimari union is good. As BRIS data estimated population are 28181 and registered 37482 that means registration occurred 133% and certificate handover status is 97.24%. As upazila primary education office there are 5-6 years aged children 432 and all are enrolled in PPE at GPS. On the other hand a National renowned NGO BRAC run 9 PPE Centre and covered 240 children in this union those are out of GoB report. DPEO Survey also mentioned Kashimari union has primary aged children 2653 but enrolled in primary level 2618 that means 35 are out of school. More over NGO JCF run 14 ABL school and covered 305 primary level drop out children those also not included in GoB status. There are 3699 children enrolled in secondary level but no data in GoB or community about drop out number from secondary level. As community assumption significant number of children are out of secondary education in the union. Child marriage is occurred but it is not recorded as the age is recorded above 18 years in the register during marriage.

3. Health and Nutrition

3.1 Situation of Children and Women in the Union

According to the community there are under two children is 608 and all are received full package of vaccines. This figure varies with the data provided by community which is 637. Community think that every child is vaccinated however, there might be a few left out children which are not counted or recorded.

Table 2.1 shows the Number of Pregnant women with status of IFA intake in Annex II.

Community data says that the Union has 268 pregnant women as of September 2014 out of them only 80 have completed 4 ANC visits and 182 have consumed @ at least 100 IFA tablets during last six months (Source: WDC as of September 2014). This data varies with the administrative data i.e. Family Planning Office enlisted 565 pregnant women out of which 453 have completed 4 ANC visits, 471 have received and consumed @ minimum 100 IFA tablets during last six months.

Table 2.2 shows the Number of Pregnant women with status of IFA intake in Annex II.

Few institutional delivery takes place in the upazila level. Institutional delivery is very low and it is assumed by the community that 30 to 40 delivery take place in upazila health center. These deliveries mostly occur in case of complicacy or in the case of women from well off families or who are very aware.

3.2 Facilities and services available in the Union: The Union has a Family Welfare Center (FWC), 3 functional Community Clinics (CC), 8 Satellite Clinics and 24 EPI sites. There are health services in the Union provided by NGOs which are mainly community awareness.

Table 2.3 in annex II shows the available facilities in the Union.

3.3 Status of Human Resource:

3.3.1 Department of Health: The Union is served by 1 SACMO, 1 Assistant Health Inspector (AHI), 5 health assistant and three CHCP. There is no vacant post but community were not getting satisfactory service from union health and family planning department.

Table 2.4 in annex II shows the HR status of Health services in the Union.

3.3.2 Department of Family Planning: The Union is served by 1 SACMO, 1 Family Welfare Visitor (FWV), 1 Family Planning Inspector (FPI) and 6 Family Welfare Assistants (FWA). There are no vacant post.

Table 2.5 in annex II shows the HR status of Family Welfare services in the Union.

4. Situation of Birth Registration, Disability, Child Marriage and Child Labour

4.1 Birth Registration: A significant number of children of one year old do not have birth certificate. Community data shows that only 66 children have birth certificates out of 608 children and as of September 2014, 542 child birth were not registered. Till today no child were registered within 45 days of birth. The Union Parishad is well equipped for providing services for ensuring birth registration of children. It is served by a Secretary, and two UISC Entrepreneurs. This progress happened with the support of the District, Upazila administration, UNICEF and NGOs joint efforts. The UP is providing free services to the children of below two years.

4.2 Children with Disability: There are 60 children with disability in the union. Few of them are attending school and many of them do not have opportunity to attend school as the school does not have physical structure or friendly environment that encourages them to stay. Data are not available neither with the community or the government department on how many children are attending schools and how many do not attend.

4.3 Child Marriage: Though child marriage occurs, no data available on child marriage.

4.4 Children detached from families: Some children are detached from their family. However, the community do not have information on whether these children are all orphan or where they are engaged. The UP is trying to collect the real information and accordingly make a plan for their survival.

4.5 Status of HR: The Union has one Secretary who is responsible for all the activities in the UP including birth registration. According to the UP Act 2009, the UP should have at least another staff who will look after the accounts and other administrative issues. However, the UISC Entrepreneurs are providing support in birth registration. The Union is also served by a government social worker.

4.6 Child Labour: According to the community the Union has 204 children who are engaged with informal labour force. Children are mainly engaged in agricultural works, fishing and non-formal sector like in the tea stall and small hotels and restaurants. And these children are out of schools. Though some of the children are getting conditional cash transfer from the government supported by UNICEF, it is not able to cover all of the children out of school.

5. Education: Pre Primary, Primary and Secondary Education

5.1 Coverage of Education: According to the survey conducted by the DPE, the Union has a total of 432 pre-school aged children of which all are enrolled in pre-primary class run by government. Upazila primary education office have no any status on how many children are enrolled in NGO run PPE Centre even they shows total number of children in the union only those are enrolled in GOB PPE Centres. A national NGO BRAC run 9 PPE Centres in the union and covered 240 children. NGOs do not conduct any survey on how many eligible children are in the Union rather they use the departmental data and enrol children within the surrounding of the school. According to the community people, there are many children who do not attend pre-primary class because of lack of early learning age and shortage of school within their reach (within a kilo meter).

At primary level there are 2653 children of 6-10 years old but 2618 enrolled in the primary schools run by Government that means 35 are not enrolled. On the other hand NGO named JCF run 14 ABL school and covered 305 primary level drop out children those are not included in GoB status. According to community information till some children are not enrolled in the primary schools. Many children are attending Madrassa for their education both at primary and secondary level and data are not available. Community data of this age group differs with the administrative data.

At secondary level, there are 3699 children are enrolled in different schools (Girls: 2120 & boys: 1579) students are enrolled in three secondary level registered schools and five secondary level Madrassa within and adjacent to the union. According to the Table 4.3 there are no data for out of school children. If we consider the child population data (Census 2011), the secondary school going children are 3361 or more and the school enrolment is only 2575 which means that a large number of children (786) are not enrolled or do not attend in or dropped out from secondary education (Age 11-14 only).

Table 4.1, 4.2, and 4.3: shows the data on Children enrolment in education in Annex IV.

5.2 Available Facilities: The Union has 14 Government Primary Schools (GPS), 9 PPE Centres run by BRAC and 14 ABL school run by JCF. Each village of this union have at least one Government primary school. The Union has only two secondary schools and five Madrasa to cover the secondary level education.

Table 4.4 shows the data on facilities in Annex IV.

5.3 HR status in the Education Sector: There are 14 posts for Head Teachers and 95 posts for Assistant Teacher sanctioned in 14 GPS and 14 assistant teacher post are vacant which hampered the quality of primary education. According to the Government policy standard, the teacher student ratio for PPE is 1:30 and for primary class the ratio is 1:45. The data in table 5.2 shows that there are 2618 children enrolled in 14 GPS and a five schools do not follow this standard and the average class size of these schools is more than 50 PPE children /teacher. Discussion with different school teachers and community, it is found that also five schools are overcrowded and more than 60 children are enrolled in each class. This overcrowds hampers the learning process of the children.

6. Water and Sanitation

6.1 Safe Water Facility: DPHE does not have record on number of tube wells, Rain water harvesting, PSF and pipe line supply water points in the union. According to the Census 2011, 5477 households have tube wells out of 6452. This figure widely varies with the community data. Community data shows that the Union has 389 tube wells, 5 RWHS and 25 PSF and total of 6507 households (94.36%) have access to safe water out of 6896 households. According to the Government Policy, every 5 households should have one safe water points.

Sanitation coverage: Sanitation coverage in the Union is fair. The union has 6452 (Census 2011) households where 1143 households (17.72%) have hygienic latrines, 5208 households have unhygienic latrines and 101 households do not have any latrines. Community data widely varies with this data. Table 5.2 in Annex V shows that 5124 households have hygiene latrines, 1708 households use unhygienic latrines and 64 households do not have any latrines out of 6896 households

Status of HR: The Union is served by 0.50 (one for two union) tube well mechanic who is responsible only for the DPHE provided water points. There is a Sub-Assistant Engineer in upazila.

Services by NGOs:

There are six to seven NGOs including BRAC, Care-Bangladesh, JCF, Rupantar Shushilon are working in the Union on health, nutrition education, child protection, water and sanitation etc. BRAC, Care-Bangladesh, JCF, Rupantar are is implementing education, nutrition, C4D and WASH Project with support from UNICEF.

8. Functional Status of Union Parishad

The Union Parishad is functioning with the Chairman, 12 members and a Secretary. The UP holds coordination meeting in every months regularly. All the standing committees have been formed and most of the committees are functioning and hold meeting to discuss the relevant issues.

Ward Shova: Ward Shovas were held in all the Wards in March and April 2014 and children issues were discussed in many of the Ward Shovas. Members proposed specific needs of children related to education, child rights, safe water and sanitation to incorporate in the UP plan. Last year UP budgeted Taka 2,170,9000.00 to implement its annual plan for 2013-2014 fiscal year. This budget largely was distributed in road constructions, infrastructures etc. Tk. 58000.00 was allocated for children to address the children issues. In this year the UP allocated Tk.110000.00 for children and total budget for fiscal year 2014-15 is 2,87,17300 taka.

Detailed data on the profile are presented in the next pages as annex.
