Map of Munshigonj Union

1. Background, Socio-economic conditions, Disaster Vulnerabilities

1.1 Background

Munshigong is a Union of Shyamnagar upazila of Satkhira district. The union was established in 1950 by the East Pakistan. It is about 15 Km from Upazila head quarter and 70 km from Satkhira district head quarter. The first Chairman of the union parishad was Sheikh Ali Gohar Alom who was nominated by the elected ward members. The present UP Chairman Abul Kashem Moral was elected by direct peoples vote and took charge in May 2011. The UP complex is located at Munshigonj village ward no. 3. Total area of the union is 39 sq. Km. The Malonchi River separated the union from Sundarban.

1.2 Socio-economic condition:

Like other rural areas of this district about 70% per cent (approx.) people are living below poverty line. Main occupations of the population are agriculture, fishing, day labor, van/auto bike puller and small trades. The main crops are paddy and buttlanut (cash crops). There are lots of forests cultivated by the government and private farmers. Fishing is considered as major livelihood, children are engaged in fishing boats resulted deprivation of their rights which is capital concern of education. Total literacy rate in the union is 50.10%, of which male 57.1% and female 43.7% (Census 2011). There is no government and private Bank in this union but it has 3-4 medium size village markets. However, there are NGO, Asa, Najarin Mission ,SUS who are involved in micro-credit/financing programme. World Vision, Rupantor are works on good governace. Cow and buffalo milk is available here and about 22 families are involved with milk collection and production of card, sweets etc. and these products export to other districts.

1.3 Geography:

The union is located in Shyamnagar Upazila and surrounded by Burigoalini union in the North and east, Isshawripur union in the west and Malonchi River and Sundarban in the South. The Malonchi River separated the union from Sundarban.

1.4 Disaster and Vulnerabilities:

The union is situated on the bank of Malonchi River which separated the union from Sundarban. The total area is coastal belt so Cyclone, heavy rainfall, and tidal wave hits almost every year and affects the people, damages their houses and crops, increase their sufferings which make them poor/ultra-poor. Poverty is persistent due to natural disaster and low

income growth in the union. In the rainy season paddy, vegetable and other crops usually suffered by water logging. Fish farmer's loss their fishes due to overflow of water. There are 11 Cyclone shelter at the union & location at villages of Munshigong, Harinagar, Hetaltala, Kultali, Kadamtala, Jelekhali & others villages. The Union Disaster Management Committee (UDMC) has assessed the disaster vulnerabilities and developed disaster preparedness and response plan in the last year with the support of LCBCE - UNICEF.

1.5. Hard-to-Reach Areas:

There is hard to reach areas in this union as internal communication. Some Carpeting, Brick soling and earthen road linked with almost all villages. Motor cycle and van are usually used within the union for communication. People do not face much difficulty to have access to social service facilities. Distance and communication mood are given below.

Sl#	Name of Village	Distance from Union Parishad	Mood of Communication
1	North Kadamtala	05 km	Van, Cycle, Motor cycle
2	Dhankhali	07 km	Van, Cycle, Motor cycle
3	Jelekhali	03 km	Van, Cycle, Motor cycle
4	South Kadamtala	04 km	Van, Cycle, Motor cycle
5	Kultoli	03 km	Van, Cycle, Motor cycle
6	Parshokhali	05 km	Van, Cycle, Motor cycle
7	Mirganj	06 km	Van, Cycle, Motor cycle

2. Population Profile:

2.1 Population in general

According to population Census 2011 The Union has a total population 31832 in 7206 house hold and population density is 1092 per Sq Km. But there is a significant variation on the size of population of the Union as "the holding assessment 2012-2013" which was conducted by union parishad, itself, and enumerated the total population 35,019 and the number of households 7, 928. The Union Parishad claimed that the holding assessment is updated and correct. Around 62% population of this union are Muslim and 38% are from Hindu religion.

The details are shown in the Table 1.1 in the Annex I.

2.2 Child Population:

According to the Census 2011, total child population in the union from 0 to 19 years are 12,299 which is 38.64% of total population (0-4 is 2715, 5-9 is 3450, 10-14 is 3466 and 15-19 is 2668. Community data provides more age specific information than census data and the total child population from 0 to 18 years are 12938 which is 36.95% of total population, 0-1 year is 641, 1

to 2 years 843, 5 to 6 years 1757 and 6 to 10 years 2464 and 10-18 is 4834. This gives an increased population number than Census as usual.

Table 1.2 shows the details.

Part B: Situation of Children and Women

The following chapters describe the sector wise facilities and situation of children and women in the Union. The following table gives a snapshot of the situation of children and women in the union:

Table 1: Snapshot of Situation of children and women in the union

Indicators	Total	Received	Not Received
Number of pregnant women who have received / not received IFA tablets	577*	543*	34*
No of pregnant mothers who have completed 4 ANC visits	577*	518*	59*
No of delivery take place in health centers (institutional delivery)			No data
No of 1 year old children having / not having birth certificates	935*	213**	722**
No of birth registration within 45 days of birth		110**	
No of 1 year old children who have completed all the vaccines and left out	935* 801**	935* 783**	0* 18**
No. of children <5 with / without recommended weight and height			No data
No. of children in PPE/ out of PPE	551*	551*	But BRAC covered 130 through 5 PPE Center.
No. of children in / out of school (Primary)	3493*	3490*	3* but JCF covered 325 through 13 ABAL school.
No. of children in / out of school (Secondary)		2383*	No data for dropout
No of children engaged in labor		187**	
Children with disabilities		62**	
No. of children not living with families			No data
No of children below 18 who are married			No data
No of households with / without access to safe water sources	7928**	4018**	3910**
No of households with / without sanitary latrines	7928**	4532**	3396**
No of female headed households			No data

*administrative data, **community data ***BRIS data as of January 2014

The union has 577 pregnant women and as of December 2014 all of them have visited the health center at least once for checkup. However, only 518 Pregnant Women have completed 4 ANC visits and only 34 pregnant women not receive the full package of service. None of the health centers in the union have any facility for deliver so no administrative data is available on this indicator. The table above shows that only 18 children do not have full coverage of vaccination out of 801 children (Community data) but administrative data shows all children have received full package of service. Data are not available on nutritional status of children in any form. Community do not have much idea on this however, they identify healthy (fatty) and unhealthy (thin) children and think that most of the children are healthy. Health centers do not record the

height or weight of the children. The table above shows that 722 children of 1 year do not have birth certificate out of 935 children (Community data). Birth registration within 45 days are 110 and over all birth registration status of Munshigonj union is very good. As administrative data all eligible (551) children enrolled in PPE class but BRAC NGO covered 130 through 5 PPE Center which not included as eligible group in administrative data. Only 3 children out of 3493 of school going age at primary level are not enrolled in the school but JCF NGO covered 325 dropout children by ABAL school. A significant number of children are out of secondary education in the union which is about 2,047. Child marriage is occurred but it is not recorded as the age is recorded above 18 years in the register during marriage.

3. Health and Nutrition

3.1 Situation of Children and Women in the Union

According to the community 783 children have received vaccines out of 801 children of 1 year age. This figure varies with the data provided by health sector which is 935 and all children have fully vaccinated. Community think that every child is vaccinated however, there might be a few left out children which are not counted or recorded.

Table 2.1 shows the Number of Pregnant women with status of IFA intake in Annex II.

Community data says that the Union has 438 pregnant women as of December 2014. During December 2014, 338 pregnant women have completed 4 ANC visits and 368 have consumed at least 100 IFA tablets during last six months (Source: WDC as of September 2014). This data varies with the administrative data i.e. Family Planning Office enlisted 577 pregnant women out of which 518 have completed 4 ANC visits, 543 have received IFA tablets and all have consumed 100 IFA during last six months up to September 2014.

Table 2.2 shows the Number of Pregnant women with status of IFA intake in Annex II.

Few institutional delivery takes place in the upazila level. Institutional delivery is very low and it is assumed by the community that 15 to 20 delivery take place in upazila health center. These deliveries mostly occur in case of complicity or in the case of women from well off families or who are very aware.

3.2 Facilities and services available in the Union: The Union has a Family Welfare Center (FWC), 4 functional Community Clinics (CC), 8 Satellite Clinics and 24 EPI sites. There are health services in the Union provided by NGOs which are mainly community awareness.

Table 3.3 in annex II shows the available facilities in the Union.

3.3 Status of Human Resource:

3.3.1 Department of Health: The Union is served by 1 MO, 1 SACMO, 1 Assistant Health Inspector (AHI), 4 CHCP. Out of 6 sanctioned posts of Health Assistants, 5 posted and 1 is currently vacant. Though the MO and SACMO is posted in the union but they rarely provide services to the people. Community people informed that both of them not present in Health Center regularly. Shortage of human resources hampers the regular services of pregnant mothers and children.

Table 2.4 in annex II shows the HR status of Health services in the Union.

3.3.2 Department of Family Planning: The Union is served by 1 SACMO, 1 Family Welfare Visitor (FWV), 1 Family Planning Inspector (FPI) and 6 Family Welfare Assistants (FWA) and there is no vacant position.

Table 2.5 in annex II shows the HR status of Family Welfare services in the Union.

4. Situation of Birth Registration, Disability, Child Marriage and Child Labour

4.1 Birth Registration: A significant number of children of one year old do not have birth certificate. Community data shows that 213 children have birth certificates out of 935 children. Till December 2014, 110 child birth were registered under 45 days (BRIS data). The Union Parishad is well equipped for providing services for ensuring birth registration of children. It is served by a Secretary, and two UISC Entrepreneurs. This progress happened with the support of the District, Upazila administration, UNICEF and NGOs joint efforts. The UP is providing free services to the children of below two years.

4.2 Children with Disability: There are 62 children with disability in the union. Few of them are attending school and many of them do not have opportunity to attend school as the school does not have physical structure or friendly environment that encourages them to stay. Data are not available neither with the community or the government department on how many children are attending schools and how many do not attend.

4.3 Child Marriage: Though child marriage occurs, no data available on child marriage.

4.4 Children detached from families: Some children are detached from their family. However, the community do not have information on whether these children are all orphan or where they are engaged. The UP is trying to collect the real information and accordingly make a plan for their survival.

4.5 Status of HR: The Union has one Secretary who is responsible for all the activities in the UP including birth registration. According to the UP Act 2009, the UP should have at least another staff who will look after the accounts and other administrative issues. However, the UISC Entrepreneurs are providing support in birth registration. The Union is also served by a government social worker.

4.6 Child Labour: According to the community the Union has 187 children who are engaged with informal labour force. Children are mainly engaged in agricultural works, fishing and non-formal sector like in the tea stall and small hotels and restaurants. And these children are out of schools. Though some of the children are getting conditional cash transfer from the government supported by UNICEF, it is not able to cover all of the children out of school.

5. Education: Pre Primary, Primary and Secondary Education

5.1 Coverage of Education: According to the survey conducted by the DPE, the Union has a total of 551 pre-school aged children of which all (551) children are enrolled in pre-primary class run by government schools. On the other hand 130 children covered by BRAC NGO through 5 PPE Centre and these children not recorded in DPE surveyed report. The total number of children of aged 5 to 6 differs with the data provided by community which is 1649. NGOs do not conduct any survey on how many eligible children are in the Union rather they use the departmental data and enrol children within the surrounding of the school. According to the community people, there are many children who do not attend pre-primary class because of lack of early learning centres or school within their reach (within a kilo meter) and for poor road communications.

At primary level there are 3493 children of 6-10 years old and out of them 3490 are enrolled in the primary schools run by Government. According to this data only 3 children who are not enrolled in the primary schools in the Union. Many children are attending Madrassa for their education both at primary and secondary level and data are not available. Community data of this age group differs with the administrative and according to them the total number of children from 6 to 10 years are 3696.

At secondary level, there are 2383 children are enrolled in different schools (Girls: 1289 & boys: 1094) students are enrolled in five secondary level registered schools and two Madrassa within the union. According to the Table 4.1c there are no data about how many children do not attend school. If we consider the child population data (Census 2011), the secondary school going children are 3,503 or more and the school enrolment is only 3108 which means that a large number of children (408) are not enrolled or do not attend in or dropped out from secondary education. *Table 5.2 shows the data on facilities in Annex IV.*

5.2 Available Facilities: The Union has 17 Government Primary Schools (GPS), 18 NGO schools run by JCF and BRAC are run for primary education coverage. Out of 20 villages in the Union, there are 5 villages without government schools. However, there are some schools in those villages run by NGO and some GPS are adjacent that village. The Union has 5 secondary schools and two Madrasa to cover the children of the whole Union.

Table 5.1 shows the data on facilities in Annex IV.

5.3 HR status in the Education Sector: There are 17 posts for Head Teachers and ----- posts for Assistant Teacher sanctioned in 17 GPS and ----- Head Teacher and ----- Assistance Teacher posts are vacant. According to the Government policy standard, the teacher student ratio for PPE is 1:30 and for primary class the ratio is 1:45. The data in table 4.2 shows that there are 3490 children enrolled in 17 GPS and few schools (3) do not follow this standard and the average class size of these schools is more than 50 PPE children /teacher. Discussion with different school teachers and community, it is found that a few of the schools are overcrowded and more than 60 children are enrolled in each class. This overcrowds hampers the learning process of the children.

6. Water and Sanitation

6.1 Safe Water Facility: DPHE does not have record on number of tube wells, Rain water harvesting, PSF and pipe line supply water points in the union. According to the Census 2011, 44.1% households have access to safe water. This figure widely varies with the community data. Community data shows that the Union has 109 tube wells, 20 RWHS 60 PSF and 20 pipe line supply water points. Apart from this DPHE has provided 2 MAR project. 31 water points are not functioning. A total of 3910 households do not have access to safe water year the round out of 7928 households. According to the Government Policy, every 5 households should have one safe water points.

Sanitation coverage: At present sanitation coverage in the Union is Good. The union has 7206 (Census 2011) households where only 331 households (4.6%) have hygienic latrines, 489 HH have non water seal latrine, 6369 households have unhygienic latrines and 17 households do not have any latrines. Community data widely varies with this data. Table 5.2 in Annex V shows that 4532 households have hygiene latrines and 3396 households use unhygienic latrines out of 7928 households

Status of HR: The Union is served by 0.50 (one for two union) tube well mechanic who is responsible for water points. There is a Sub-Assistant Engineer in upazila.

Services by NGOs:

There are 11 to 15 NGOs including BRAC, JCF, Rupantar, Care-Bangladesh, Agrogoti Foundation, Shushilon, CARITAS, World Vision, Dhaka Ahsania Mission etc. working in the Union on health, education, child protection, water and sanitation etc. BRAC, JCF, Rupantar, Care-Bangladesh are implementing PPE, ABAL, C4D and Nutrition Project with support from UNICEF Education, C4D and Nutrition Section.

8. Functional Status of Union Parishad

The Union Parishad is functioning with the Chairman, 12 members and a Secretary. The UP holds coordination meeting in every months regularly. All the standing committees have been formed and most of the committees are functioning and hold meeting to discuss the relevant issues.

Ward Shova: Ward Shovas were held in all the Wards in March and April 2014 and children issues were discussed in each of the ward Sovas. Members proposed specific needs of children related to education, child rights, safe water and sanitation to incorporate in the UP plan. Last year expenses Tk. 6, 20,000/= to address the children issues and this year 2014 expenses Tk. 48, 00000/= for the children. Due to implementing of LCBCE the UCCC raise children issues to UP so that they (UP) provided more attention to address the children issues.

Detailed data on the profile are presented in the next pages as annex.
