Map of Sreeula Union

1. Background, Socio-economic conditions, Disaster Vulnerabilities

1.1 Background

Sreeula is a Union of Ashasuni upazila of Satkhira district. It is situated adjacent to the Kholpetua River. It is ten kilometers away from Assasuni Upazila head quarter. The UP complex is located at Naktara Kali Mondir village. The UP has been established in 1960 by the Pakistan Government. The first Chairman of the union was Abul Hossain Chowdhury who was nominated by the elected ward members. The present UP chairman is Mr. Abu Hena Shakil. Total area of the union is 41.67 sq. km with 25,962 populations in 23 villages. Population density is 1097 per Sq km (Census 2011).

Union Parishad consist (9) nine ward members and (3) three women members who were elected by direct peoples vote and took charge in May 2011. Communication within the union is also good except few villages those are heard to reach. About 75% people of the union are Muslim and rest 25% are from Hindu and other religion.

1.2 Socio-economic condition: Satkhira district is under operation of LGSP (Local Government Support Programme) supported by World Bank. All unions of Satkhira are under this support. From this project each union parishad allocated approximately Tk. 14-15 Lac per year to implement development work like earthen road, culverts, water sanitation, repair of schools etc. Like other rural areas of this district about 75% percent (approx.) people are living below poverty line. Main occupations of the population are agriculture, fishing, day labor, rickshaw/auto bike puller and small trades. The main agriculture crop is paddy. There are lots of forests cultivated by the government and private farmers. Fishing is considered as major livelihood, children are engaged in fishing boats resulted deprivation of their rights which is main concern of education.

There is no government and private Bank in this union but it has 2-3 medium size village markets. However, there are NGO, Asa, Najarin Mission, SUS who are involved in micro-credit/financing programme. World Vision, Rupantor are works on good governance. Cow and buffalo milk is available.

1.3 Geography: The union is situated adjacent to the Kholpetua River. It is surrounded by Ashasuni union in the North, Kholpetua River is east, Shavonali union in the west and Shyamnagar upazila in the South.

1.4 Disaster and Vulnerabilities: Cyclone and tidal wave is major disaster of the area. Last two devastating disaster SIDR and AILA has affected the union and due to that people has lost their livelihood, houses and assets. People are always in fear of cyclone especially during monsoon reason. There are 6 cyclone shelter at the union which is being under Construction and rest are in schools. The under construction Cyclone shelter is in Mariyala village. The Chairman of the Union working is hard to make the shelter Safe, child friendly, and also women friendly during the Disaster. The Union Disaster Management Committee (UDMC) has assessed the

disaster vulnerabilities considering local context and developed disaster preparedness and response plan in the last year with the support of LCBCE - UNICEF.

1.5. Hard-to-Reach Areas: There are hard to reach areas in the union as internal communication yet to develop. Paved constructed road is not prominent but with some kaccha (mud) road connected with almost all the villages of the union. Motor cycle and Van are usually used within the union for communication. People do not face much difficulty to have access to social service facilities. Distance and communication mood are given below;

Sl#	Name of Village	Distance from Union Parishad	Mood of Communication
1	Bilboxer	2.5 KM	Engine van, Motor Cycle
2	Dhalir chack	2.5 KM	Motor Cycle, Engine van
3	Nasimabad	3 KM	Engine van, Motor Cycle
4	KalimaKhali	3 KM	Engine van, Motor Cycle
5	Baliakhalia	2 KM	Engine van, Motor Cycle
6	Gaipur	2.5 KM	Engine van, Motor Cycle
7	Radharaty	2.5 KM	Engine van, Motor Cycle

2. Population Profile:

2.1 Population in general

According to population Census 2011 The Union has a total population 25962 in 5846 house hold and population density is 1097 per Sq Km. But there is a variation on the size of population of the Union as “the holding assessment 2013-2014” which was conducted by union parishad, itself, and enumerated the total population is 29238 and the number of households 6140. The Union Parishad claimed that the holding assessment is updated and correct. Around (19476 person) 75.01% population of this union are Muslim, (6365 person) 24.51% are Hindus and (121 person) 0.48% from Christian religion.

The details are shown in the Table 1.1 in the Annex I.

2.2 Child Population: According to the Census 2011, total child population in the union from 0 to 19 years are 10478 which is 40.36% of total population (0-4 is 2227, 5-9 is 3031, 10-14 is 2927 and 15-19 is 2293. Community data provides more age specific information than census data and the total child population from 0 to 18 years are 12272, which is 41.97% of total population, 0-1 year is 559, 1 to 2 years 440, 0 to 5 years 3303, 5 to 6 years 1777, 6 to 10 years 4398 and 10-18 years 4571. This gives an increased population number than Census as usual.

Table 1.2 shows the details.

Part B: Situation of Children and Women

The following chapters describe the sector wise facilities and situation of children and women in the Union. The following table gives a snapshot of the situation of children and women in the union:

Table 1: Snapshot of Situation of children and women in the union

Indicators	Total	Received	Not Received
Number of pregnant women who have received / not received IFA tablets	264*	251*	13*
No of pregnant mothers who have completed 4 ANC visits	264*	249*	15*
No of delivery take place in health centers (institutional delivery)			No data
No of 1 year old children having / not having birth certificates	605*	73**	532**
No of birth registration within 45 days of birth		00**	
No of 1 year old children who have completed all the vaccines and left out	605*	590*	15*
No. of children <5 with / without recommended weight and height			No data
No. of children in PPE/ out of PPE	543*	524*	19*
No. of children in / out of school (Primary)	3107*	3085*	22* But drop out child covered by ABL school are 176
No. of children in / out of school (Secondary)		2363*	No data of total children
No of children engaged in labor		162**	
Children with disabilities		100**	
No. of children not living with families			No data
No of children below 18 who are married			No data
No of households with / without access to safe water sources	6140**	1594**	4546*
No of households with / without sanitary latrines	6140**	3031**	3109**
No of female headed households			No data

***administrative data, **community data ***BRIS data as of December 2014**

The union has 264 pregnant women as of December 2014 and out of them 251 have visited the health center for checkup and take the IFA tablet in different number. However 249 Pregnant Women have completed 4 ANC visits and 15 not receive the full package of service. None of the health centers in the union have any facility for deliver so no administrative data is available on this indicator. The table above shows that 590 under 2 years' age children received full coverage of vaccination out of 6057. Community data also shows that 58 children not received full package of vaccine out of 538. Data are not available on nutritional status of children in any form. Community do not have much idea on this however, they identify healthy (fatty) and unhealthy (thin) children and think that most of the children are healthy. Health centers do not record the height or weight of the children. 532 children of 1 year do not have birth certificate out of 605 children (Community data). Birth registration within 45 days not yet occurred but overall birth registration status of Sreeula union is good. As upazila primary education office there are 543 children and out of

them 524 are enrolled in PPE at GPS and only 19 children are out of PPE class. DPEO Survey also mentioned there are primary aged children 3107 and enrolled in primary school are 3085. On the other hand NGO JCF run 11 ABL school and covered 176 primary level drop out children those also not included in GoB status. There are 1840 children enrolled in secondary level school and 523 enrolled in secondary level Madrasa but no data in GoB or community about drop out number from secondary level. As community assumption significant number of children are out of secondary education in the union. Child marriage is occurred but it is not recorded as the age is recorded above 18 years in the register during marriage.

3. Health and Nutrition

3.1 Situation of Children and Women in the Union

According to the community 480 children have received full package of vaccines out of 538. This figure varies with the data provided by health sector which is 605 and received full doze of vaccine are 590 that means only 15 are out of vaccine received. Community think that every child is vaccinated may not be full doze however, there might be a few left out children which are not counted or recorded.

Table 2.1 shows the Number of children fully immunized or left out in Annex II.

Community data says that the Union has 199 pregnant women as of October 2014 but only 134 have completed 4 ANC visits and 116 have consumed @ 100 IFA tablets during last six months (Source: WDC as of September 2014). This data varies with the administrative data i.e. Family Planning Office enlisted 264 pregnant women out of which 249 have completed 4 ANC visits and 219 have consumed @ 100 IFA as of December 2014.

Table 2.2 shows the Number of Pregnant women with status of IFA intake in Annex II.

Few institutional delivery takes place in the upazila level. Institutional delivery is very low and it is assumed by the community that 25 to 30 delivery take place in upazila/ district health center. These deliveries mostly occur in case of complicity or in the case of women from well off families or who are very aware.

3.2 Facilities and services available in the Union: The Union has a Family Welfare Center (FWC), 3 functional Community Clinics (CC), 8 Satellite Clinics and 24 EPI sites. There are health services in the Union provided by NGOs which are mainly community awareness.

Table 2.3 in annex II shows the available facilities in the Union.

3.3 Status of Human Resource:

3.3.1 Department of Health: The Union is served by 1 SACMO, 1 Assistant Health Inspector (AHI), 5 out of 6 Health Assistants and 3 CHCP. There is one Health Assistant position vacant in this union. Shortage of health staffs hampers the regular health service in the community so community people are not getting adequate health service.

Table 2.4 in annex II shows the HR status of Health services in the Union.

3.3.2 Department of Family Planning: The Union is served by 1 Family Welfare Visitor (FWV), 1 Family Planning Inspector (FPI), 5 out of 6 Family Welfare Assistants (FWA) and there are one SACMO and one FWA vacant positions. As community people information they are not getting satisfactory service from the Family planning department.

Table 2.5 in annex II shows the HR status of Family Welfare services in the Union.

4. Situation of Birth Registration, Disability, Child Marriage and Child Labour

4.1 Birth Registration: A significant number of children of one year old do not have birth certificate even they are not registered in BRIS. Community data shows that only 73 children have birth certificates out of 605 children. Till December 2014, there are no birth registration occurred within 45 days of birth. (BRIS data). The Union Parishad is well equipped for providing services for ensuring birth registration of children. It is served by a Secretary, and two UISC Entrepreneurs. This progress happened with the support of the District, Upazila administration, UNICEF and NGOs joint efforts. The UP is providing free services to the children of below two years.

4.2 Children with Disability: There are 100 children with disability in the union. Few of them are attending school and many of them do not have opportunity to attend school as the school does not have physical structure or friendly environment that encourages them to stay. Data are not available neither with the community or the government department on how many children are attending schools and how many do not attend.

4.3 Child Marriage: Though child marriage occurs, no data available on child marriage.

4.4 Children detached from families: Some children are detached from their family. However, the community do not have information on whether these children are all orphan or where they are engaged. The UP is trying to collect the real information and accordingly make a plan for their survival.

4.5 Status of HR: The Union has one Secretary who is responsible for all the activities in the UP including birth registration. According to the UP Act 2009, the UP should have at least another staff who will look after the accounts and other administrative issues. However, the UISC Entrepreneurs are providing support in birth registration. The Union is also served by a government social worker.

4.6 Child Labour: According to the community the Union has 162 children who are engaged with informal labour force. Children are mainly engaged in agricultural works, fishing and non-formal sector like in the tea stall, Motor Cycle repairing garage and small hotels and restaurants. And these children are out of schools. Though some of the children are getting conditional cash transfer from the government supported by UNICEF, it is not able to cover all of the children out of school.

5. Education: Pre Primary, Primary and Secondary Education

5.1 Coverage of Education: According the survey conducted by the DPE, the Union has a total of 543 pre-school aged children and 524 are enrolled in pre-primary class run by government. The total number of children of aged 5 to 6 differs with the data provided by community which is 1777.

Some NGOs are running PPE School but they do not conduct any survey on how many eligible children are in the Union rather they use the departmental data and enrol children within the surrounding area of the government primary school. According to the community people, there are many children who do not attend in pre-primary class because lack of knowledge on early learning age, shortage of centres or school within their reach (within a kilo meter) and for poor road communications.

At primary level there are 3107 children of 6-10 years old and 3085 are enrolled in the primary schools run by Government that means only 22 children are not enrolled. But one NGO named JCF run 11 ABL school and covered 176 primary level drop out children those are not included in GoB status. According to community information till some children are not enrolled in the primary schools. Many children are attending Madrassa for their education both at primary and secondary level and data are not available. Community data of this age group differs with the administrative data.

At secondary level, there are 2363 children are enrolled in different schools (Girls: 1156 & boys: 1207) students are enrolled in three secondary level registered schools and three secondary level Madrassa within the union. According to the Table 4.3 there are no data for out of school children. If we consider the child population data (Census 2011), the secondary school going children are 3157 or more and the school enrolment is 2496 which means that a large number of children (661) are not enrolled or do not attend in or dropped out from secondary education (Age 11-16 only).

Table 4.1, 4.2, and 4.3: shows the data on Children enrolment in education in Annex IV.

5.2 Available Facilities: The Union has 16 Government Primary Schools (GPS), 2 Ebtedai-e Madrassa and 11 ABL school run by JCF to cover PPE, primary education and drop out children. There are 3 secondary school and 3 secondary level madrassa to cover the secondary level education. There are 5 small village till have no Government Primary School of NGO school.

Table 4.5 shows the data on facilities in Annex IV.

5.3 HR status in the Education Sector: There are 16 posts for Head Teachers and 73 posts for Assistant Teacher sanctioned in 16 GPS and there are no any vacant post. According to the Government policy standard, the teacher student ratio for PPE is 1:30 and for primary class the ratio is 1:45. The data in table 4.2 shows that there are 3107 children enrolled in 16 GPS and four school do not follow this standard and the average class size of these schools is more than 50 PPE children /teacher. Discussion with different school teachers and community, it is found that a few of the schools are overcrowded and more than 55 children are enrolled in each class. This overcrowds hampers the learning process of the children.

6. Water and Sanitation

6.1 Safe Water Facility: DPHE does not have proper record on number how many number of tube wells, Rain water harvesting, PSF and pipe line supply water points in the union. They have record only GoB provided water source. According to the Census 2011, 66.78% (3904 HH) households have tube wells water facilities. This figure widely varies with the community data. Community data shows that the Union has 251 tube wells, 1 RWHS and 8 PSF and out of this 34 points are not functioning. Total 234 tube well are arsenic contaminated so very few HH have access to save water source though about 26% HH have

access to tube-well water. According to the Government Policy, every 5 households should have one safe water points.

Sanitation coverage: Sanitation coverage in the Union is fair. The union has 5846 (Census 2011) households where 653 households (11.17%) have hygienic latrines, 2729 HH (46.68%) have unhygienic non water seal, 2288 HH (39.14%) have unhygienic non sanitary latrine and 176 households do not have any latrines. Community data widely varies with this data. Table 5.2 in Annex V shows that 3031 households (49.36%) have hygiene latrines, 3076 households (50.10%) use unhygienic latrines and only 33 households do not have any latrines out of 6140 households

Status of HR: The Union is served by 0.50 (one for two union) tube well mechanic who is responsible only for the DPHE provided water points. There is a Sub-Assistant Engineer in upazila.

Services by NGOs:

There are more than 11 NGOs including BRAC, Care-Bangladesh, JCF, Rupantar, World vision, Caritas, Shushilon working in the Union on health, Nutrition, education, child protection, water and sanitation etc. Rupantar, Care-Bangladesh, BRAC and JCF are implementing C4D, Nutrition and education Project respectively with support from UNICEF C4D, Nutrition and education Section.

8. Functional Status of Union Parishad

The Union Parishad is functioning with the Chairman, 12 members and a Secretary. The UP holds coordination meeting in every months regularly. All the standing committees have been formed and most of the committees are functioning and hold meeting to discuss the relevant issues.

Ward Shova:

Ward Shovas were held in all the Wards in March and April 2014 and children issues were discussed in many of the Ward Shovas. Members proposed specific needs of children related to education, child rights, safe water and sanitation to incorporate in the UP plan. Last year UP budgeted Taka 1, 33, 64,799/= to implement its annual plan for 2013-2014 fiscal year. This budget largely was distributed in road constructions, infrastructures etc. Only Tk.1, 40,000/= was allocated for children to address the children issues. In this year the UP allocated Tk.1, 50,000/= for children and total budget for fiscal year 2014-15 is 1, 50, 10,500/= taka.

Detailed data on the profile are presented in the next pages as annex.

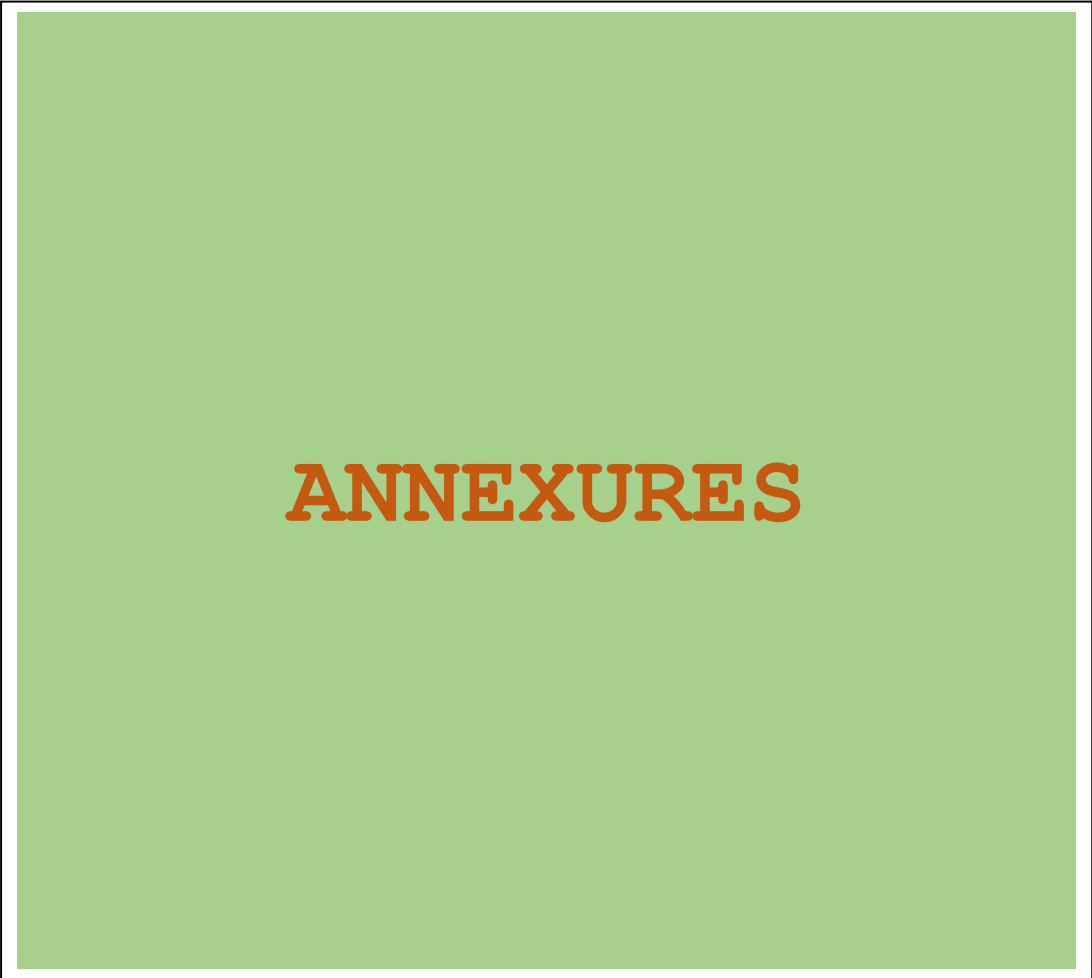

Table 1.1: Sex disaggregated Population data
